

The Catholic Community of St Francis of Assisi

We use media as a form of evangelization and news about our faith community. We are sensitive to the use of minors in all our communications platforms per our diocesan safe environment protocols. As a parent or guardian of a minor who is enrolling in or registering for an activity or organization of St. Francis, we want to know your disposition regarding the possible use of your child/ren's in these various platforms. Thank you for providing us with guidance on how you would like us to handle any situation where your child/ren may be involved in any of our communications platforms by replying to the question below. As standard policy, we only use a child's first name in all communications. This consent may be revised or revoked at any time by you as parent or guardian upon written request.
